

# Agilent 5975C Series GC/MSD System

## Data Sheet

### GC/MSD

The Agilent 5975C Series Gas Chromatograph/Mass Selective Detector System with Triple-Axis HED-EM Detector offers high performance and flexibility with many options. The mass selective detector can be combined with either a compact Agilent 6850 GC, or the full-featured Agilent 6890N GC, or the high-performance 7890A GC. Liquid autosamplers range from an injector tower to a CTC PAL system.
